

Use

- ACE Energy AGM batteries are specially designed for frequent charging and discharging.
- They are suitable for storage of renewable solar and wind energy, mobility and medical equipment, cable TV, etc.

Specifications

		AGM12-100
Electrical Specifications	Reference	22612-01VRU
	Rated Voltage	12 V
	Nominal Capacity (20HR)	105 Ah
	Nominal Capacity (10HR)	100Ah
	Internal Resistance	≤5 mΩ
	Max. Discharge Current (5s)	1000 A
	Continuous discharge current	100 A
	Maximum load current	30 A
Environment	End-of-charge voltage	13.5V – 13.8 V @25°C
	Charge Temperature	0°C to 40°C
	Discharge Temperature	-15°C to 50°C
Mechanical Specifications	Storage Temperature	-15°C to 40°C
	Container Material	ABS
	Dimensions (L x W x H)	33 x 17.3 x 22 cm
	Weight	28 kg
	Terminal	M8
