

LiFePO₄ Battery 12.8V - 150Ah

Référence - 22100-0150L5

Designed with your comfort in mind, our LiFePO₄ battery features an integrated ON/OFF switch with the option for remote control operation, allowing seamless integration into even the most compact installations.

R¹⁰ Certification

Weight ——— 15.5 Kg
Material ——— ABS

Made in France

Electrical Specifications

Nominal voltage ——— 12.8 V
Capacity ——— 150 Ah / 1920 Wh
Full charge voltage ——— 14.2 V - 14.6 V
Cycle Life ——— ≥ 6000 cycles at 50 % DoD

Charging Parameters

End-of-charge voltage ——— 14.2 V - 14.6 V
Recommended current ——— 30 A
Maximum current ——— 75 A

Discharge Parameters

Continuous Current ——— 150 A
30-second current ——— 300 A
Peak current ——— 400 A

Certification

R10 ——— E57*10R-060853

Built-in Protections

Overcharge, short circuit, Deep Discharge, Overheating, cell balancing

Environment

Charge temperature ——— 0°C at 45°C
Température de décharge ——— -20°C at 60°C

Available On :

BT

RECOMMENDED ACCESSORIES

Remote **ON/OFF** Switch
1m, 2m or 5m*

Fuses + holders*

Battery Mounting Brackets*

*Sold Separately
