

## E-Box-1500w

Référence - 10310-1500W

With an integrated LiFePO4 battery, the E-Box provides an all-in-one solution for your vehicle's energy autonomy. Specifically designed to fit under the passenger seat, it meets all the electrical needs of your camper with minimal footprint. Optionally, it can include the 12V distribution hub and its remote display.

**3h** Installation time

**R10** Certification

Weight ———— 25 Kg  
Material ———— PE-HD

Made in France

### Battery Specifications

Nominal voltage	12.8 V
Nominal capacity	120 Ah / 1536 Wh
Full voltage	14.6 V
Maximum charge current	100 A
Maximum discharge current	150 A
Cycle life	≥ 6000 cycles at 50 % DoD

### DC-AC Inverter

Output voltage	230-240VAC / 50Hz
Rated power	1500 W
Maximum power	3000 W

### Certification

**R10**

Battery pack	E57*10R-060853
DC/DC Charger	E57*10R-0600112
Inverter	E57*10R-060570
Solar MPPT Charger	E24*10R-063433

## CHARGING MODES

### DC-DC Charger

Applicable voltage	12 to 16 V
Charge current	50 A to 70 A
Automatic D+ detection	Yes

### Solar MPPT Charger

Applicable voltage	≤ 50 V
Charge current	25 A
Maximum power	350 W

### AC-DC Charger

Charge current	20 A
----------------	------

Included accessories

Available On :

BT

## RECOMMENDED ACCESSORIES

Remote **ON/OFF** Switch  
1m, 2m or 5m\*

Battery mounting brackets\*

Auxiliary battery 120 Ah

\*Sold Separately
