DESIGNED & ASSEMBLED IN FRANCE

E-Case-Mini

Reference - 10410-0050B

The E-Case-Mini is an all-in-one solution combining a 12.8 V – 50 Ah LiFePO4 battery, a charger and a 500 W inverter (1000 W peak).

Its case format with backpack harness (11 kg) allows comfortable, hands-free carrying – ideal for on-site work without mains power (e.g. roller shutter testing in new buildings).

Fitted with a 230 V socket, USB ports, a mains input (20 A charging) and a cigarette lighter input, it adapts to all field applications.

Weight — *11 Kg*

Material — *Reinforced ABS*

Made in France

Specifications

Nominal voltage	12.8 V
Nominal capacity	50 Ah - 640 Wh
Full charge voltage	14.6 V
Cycle life	≥ 6000 cycles at 50% DoD

CHARGING MODES

Mains (AC/DC)	Charging current	20 A
Cigarette lighter socket(DC/DC)	Charging current	10 A

DC-AC Inverter

Rated power	500 W
Peak power	1000 W
